

Delivering Value Through Program Assurance

THE CLIENT

As one of the world's largest multinational beverage and brewing companies, this Fortune 50 client manufactures a wide range of consumer products sold in more than 200 countries. The company also operates its own bottling plants and distribution facilities for their iconic Americana alcoholic beverages.

BUSINESS CHALLENGE

The client faced challenges in delivering critical at-risk projects on time and within budget.

Their desire was to establish scalable processes in order to screen projects through health assessments and troubled project recovery programs. The newly implemented procedure needed to be something that their staff could easily follow and utilize on a variety of project types.

THE RESULTS

On-budget projects increased by 10%

On-time delivery increased by 15%

Sponsorship and customer satisfaction increased by 15%

HOW CORBUS HELPED

- » **Developed** a program assurance process for at-risk projects
- » **Instituted** a detailed plan for assessing and recovering projects
- » **Implemented** the program assurance process in two phases: Project health check; Project recovery program
- » **Decreased** the client's budget deficit by accessing the assurance processing program
- » **Trained** the client's staff to utilize each of the new templates/tools
- » **Provided** a detailed guide and training materials to help the staff assimilate into the implementation process
- » **Delivered** report templates for screening and recovering projects including: Project Health Screening Tool, Project Review Questionnaire, Artifacts Quality Checklist, and Critical Path Planning Document
